Meeting Minutes of Tuesday 24, October 2023

Council Members present: Joshua Goldstein, Etienne Hancock (Chair), John Meyer, and Wally Reeve

Council Guests: Village Trustee Vice Chair Bob Heanue, Conservation Commission Chair Ron Stancliff, Conservation Commission Member Gerry Throne, Tom Cloutier, Martin Green, and Grant Wieler

Staff: Planning Director Todd Thomas, and Scribe Bonnie McDermott

Call to Order: Chair Hancock called the meeting to order in the Community Meeting Room of the Town Offices at 43 Portland St. in Morrisville at 5:00 P.M.

Meeting Minutes: Member Reeve moved to approve the September 12th meeting minutes. A vote of 4/0 was affirmed.

Discuss: New staff to record Planning Council Meetings. Mr. Thomas introduced Bonnie McDermott, who was hired to assist with Zoom Management/Minute Recording. The Council decided to Zoom its meetings for the public without using the interactive feature. The members hope that the availability of the meeting on Zoom will encourage the public to come to meetings and discuss issues live. Mr. Thomas said he would work with Town Administration to see if the recordings of these meetings could be retained and placed on YouTube, or similar format, once the Selectboard added video to its new records retention policy.

Discuss: Minimum parking ratio changes at risk in current zoning change. Currently, a section of the legislature's Act S.100 includes warned zoning changes to the parking ratios. The proposed changes will reduce the existing parking ratios for residential uses to no more than 1 parking space per dwelling unit. As more information is expected after the joint Selectboard and Village Trustee annual meeting on the 25th of October, it was decided to wait for the results of that meeting. Further discussion will be held.

Discuss: S.100 Homes for Everyone zoning changes. Mr. Thomas's list of actions to accommodate the impact of Act S.100 "homes for everyone" was presented for the Council's consideration. Act S.100 will require a large rewrite of the Town's existing zoning laws. Mr. Thomas introduced a maximum density cap for single family housing as related to "dwelling unit density standards for allowed residential uses" in the law. After discussion of these proposals, the Board requested maps including the Zoning Maps, the Village Boundary map, Village Service Maps, and the Town Designation Map for further consideration at the next meeting.

Discuss: Town Administration request for a Town Plan revision. A request for a town plan revision by the Planning Council has been made by the Interim Town Administrator. Although the town plan has been rewritten many times before and has not been approved by the LCPC, the motivation for a new town plan is the option to apply for grant monies that are only available if the town has a downtown designation. The Planning Council agreed that it would consider

making the small update that was being requested to the town plan in the summer of 2024 (post the completion of the required S.100 zoning changes). It was agreed that the start of said work was dependent on all three components: the Selectboard, the Village Trustees, and the LCPC voting that they would approve the Town Plan if it was revised specifically as requested. The Planning Council will wait to hear about the discussion at the Joint Committee on 10/25/23.

The meeting adjourned at 7:05 PM, submitted by Bonnie McDermott. MA

State S.100 guidance

require 1.5 spaces for duplexes and multi-family dwellings in areas without sewer and water for multiunit dwellings if existing public parking is not sufficient, rounded to the nearest whole number when calculating the total number of required spaces for multi-unit dwellings.

§2 – Required Provisions and Prohibited Effects

Duplexes and small multiunit uses: Amends 24 V.S.A. § 4412 (required provisions and prohibited effects) Municipalities must allow anywhere single unit homes (also known as single-family or single-household dwellings) are allowed for year-round use. Municipalities must apply the same or less prohibitive dimensional standards to duplexes as would apply to a single unit dwelling. In areas served by municipal sewer and water, municipalities must allow multiunit dwellings with three or four units to be a permitted (not conditional) use.

Accessory Dwelling Units (ADUs) allowances: ADU review, dimensional, or other regulations must not be more restrictive than those for single-unit dwellings. For instance, if a single-unit dwelling is not subject to a special design review, the ADU may not be subject to design review. Also, the criteria to convert an existing detached nonresidential building (such as a carriage barn) to habitable space for an ADU must not be more restrictive than a single-unit dwelling without an ADU.

Hotels & Housing Assistance: Bylaws must not prevent or penalize hotels used to rent rooms with public funds for the purpose of providing Vermont General [housing] Assistance.

Dwelling unit density standards for allowed residential uses: In areas served by municipal sewer and water that allow residential development, bylaws shall establish lot and building dimensional standards that allow 5 or more dwelling units per acre for each allowed residential use and density requirements for multi-family cannot be more restrictive than those required for single-family dwellings.

Affordable housing and mixed used development density bonus: In municipal water sewer service areas that allow residential development bylaws must permit a dwelling unit density bonus of 40% and a bonus of one habitable floor above the height maximum.

§3 – Limited Regulation of Emergency Shelters: Amends 24 V.S.A. §4413 (limitations on municipal bylaws) Shelters must be regulated similarly to state or community-owned and operated institutions. Bylaws may not interfere with daily or seasonal hours of operation or otherwise interfere with the functional use of a shelter.

§4 – Definitions: Amends 24 V.S.A. § 4303 (definitions) to move the existing ADU definition from the ADU section to this section, establish a definition for a duplex, (to mean a two-unit dwelling with a shared wall or floor/ceiling), define emergency shelter (to

Restaurant - An establishment where food and drink is available to the general public. Alcoholic beverages may or may not be served, but shall only be incidental to the serving of food. Restaurant use does not include uses for Drive-In Restaurant or Refreshment Stand and Bar.

Road - see "Street."

Sale of Goods Produced On-Site - Direct sale to consumers of goods produced or manufactured on-site or assembled on-site from un-worked materials. Examples of un-worked materials include sheet metal, glass, lumber, etc., upon which a craft is applied on-site. Retail sale of accessory items not produced on-site is also allowed, provided that no more than 25% of retail floor/display space is devoted to these accessory items

~~**Shelter**—A facility whose primary purpose is to provide temporary or transitional shelter for a guest whose stay shall not exceed 30 total days in a calendar year. A Shelter shall be staffed 24 hours a day and serve no more than 8 adult guests at any one time who may or may not have a disability as defined in 9 VSA §4501. A Shelter is not a detox center and guests of a Shelter shall not be under the influence of drugs or alcohol at any time while they reside at said shelter.~~

Short-Term Rentals - A Structure or combination of structures on the same lot that is required to be Owner Occupied, renting Bedrooms to persons for a period of fewer than 30 consecutive days. Short-Term Rentals containing 8 or fewer Bedrooms (maximum occupancy 16 people), must be approved by the Division of Fire Safety, and have a valid State waste-water permit. Short-Term Rentals with 4 Bedrooms or fewer (maximum occupancy 8 people) is exempt from the above local permit requirements, but not the Owner-Occupied provision. The Short-Term Rentals use is not a Hotel, Inn or Motel use, with said use regulating 9 or more bedrooms for 17 or more people.

Setback - The distance from the footprint of a Structure to any lot line including the Street centerline. For purposes of this section a structure shall not include: (1) eaves, sills, pilasters, gutters, cornices, chimneys, and roof overhangs; (2) the footprint of stairs to first floor of a Structure; (3) ramps or other Reasonable Modifications under the Fair Housing Act; (4) Fences, (5) Signs, (6) at-grade stone or paver patios, (7) publicly accessible pedestrian walkways, boardwalks and items normally found accessory thereto, (8) front porches provided they are not enclosed that are open to the elements in all 4 seasons, (9) paved parking lots, and (10) driveways and streets.

Sexually Oriented Businesses - an inclusive term that describes the following businesses: a sexually orientated cabaret, a sexually oriented cinema, a sexually oriented store that sells sexually oriented materials such as, but not limited to, videos, images, and toys. Said definition shall not prohibit the sale of lingerie or a lingerie store.

Shoreline - The bank or edge of a watercourse, as used to determine the shoreline setback requirement. For the purpose of these bylaws, the following watercourses are covered by this definition: Lamoille River, Lake Lamoille, named brooks identified on the Town of Morristown Property Maps (Jacob Brook, Mud Brook, Beaver Meadow Brook, Sterling Brook, Kenfield Brook, Ryder Brook, Lawrence Brook, and Bedell Brook)

Sign - Any device, structure, building or part thereof, used to bring a subject to the public's attention.

Sketch Plan - A sketch of the proposed subdivision showing information specified in §720-720.4b.

Solar Energy System - A complete design or assembly consisting of a solar energy collector, an energy storage facility, where used, and components for the distribution of transformed energy, to the extent they cannot be used jointly

Drive-Through uses may be the principal or accessory use on a lot.

Dwelling Unit, Single-Family - A detached residential Building Structure to be used solely as a seasonal or year-round home for one ~~f~~Family that may or may not have an Accessory Apartment on the premises.

Dwelling Unit, Two-Family - A detached residential Building designed for or occupied as a home by 2 families living independently of each other Structure with 2 dwelling units in the same building via a shared wall or floor/ceiling (and neither unit is an accessory dwelling unit), or 2 Single-Family Dwelling Units located on the same lot.

Dwelling Unit, Multi-Family - A detached residential Building Structure designed for or occupied as a home by more than two families living independently of each other with 3 or more dwelling units in the same building via a shared wall or floor/ceiling, or the combination of 3 or more than two residential uses in multiple Buildings Structures on the same lot.

Easement - The authorization of a property owner for the use by another, and for a specified purpose, of any designated part of his or her property, conveyance suitable for record in the Town's land records.

Elevation - For the purpose of determining the height limits in all zones set forth in this Ordinance and shown on the zoning map, the datum shall be mean sea level elevation unless otherwise specified.

Family - Other than a Group Home per 24 VSA §4412.1g, a Family shall be defined as a "functional family unit" (regardless of household size) living together for 30 consecutive days or more where all common spaces, appliances, food preparation and costs are shared, or a group of not more than four unrelated persons living together for 30 consecutive days or more where all common spaces, appliances, food preparation or costs are NOT shared.

Family Child Care Facility - A State licensed or State registered family child care facility caring for less than six full-time children, which shall be permitted as a Dwelling Unit, Single-Family use of the property. A State licensed or State registered family child care facility caring for up to four part-time children, in addition to a maximum of six full-time

Section 206. Design Criteria. The Zoning Administrator or DRB may require the submission of a proposed building rendering to ensure that the below design criteria requirements are met for Dwelling Unit Multi-Family, ~~Dwelling Unit Two-Family~~, and business uses in the following zones: CB, COM, IND #4 (north of Bridge St only) & IND #5 (airport), HOS, HDR, & MDR.

- a. Architectural repetition: Each building proposed shall be architecturally different than any directly adjacent building (regardless of parcel or property lines). In a townhouse style or similar development, the prohibition on architectural repetition shall be evaluated between the individual townhomes, and not between the adjacent larger building pods (with a building pod being defined as containing 3 or more townhomes on a common foundation). Building articulation of 2 feet or more or the use of a different roof design (ex. flat, gable, gambrel, hip, shed) are minimum requirements to avoid the architectural repetition prohibition between otherwise identical buildings.
- b. Blank walls: Blank walls shall not face any Street on which the property has frontage. A blank wall is a building wall that has an expanse of 30 feet in length or greater without fenestration, building articulation or ground level doorways.
- c. Cladding: The trim boards for all windows and doors shall sit proud of vinyl siding and hide all J-Channel trim.
- d. Exterior Access: To encourage townhouse style development in the HDR Zone, all Dwelling Units shall provide a private entry/exit door that accesses at ground level.
- e. Front porch: All residential construction must include a front porch with a minimum size of 8 feet by 6 feet, located on the side(s) of the building that parallels existing or new public sidewalk(s) (as required by the Morristown Sidewalk Policy)
- f. Garages: Attached and detached garages shall be located at least 5 feet further from the primary street frontage than the foundation of the home or business that the garage is accessory to, and at least 20 feet from the closest edge of sidewalk or street pavement. Garages shall not be more than $\frac{1}{2}$ the length of said home or business, with both lengths measured along the primary street frontage. Interpretation of primary street frontage, when a property has multiple frontages, shall be made by the DRB or ZA.
- g. Public entrances: All Dwelling-Units shall include at least one functional public entrance that faces the parcel's primary street frontage. In the case of a corner lot, additional public entrances are only required if a sidewalk is present along the additional frontages.
- h. Loading docks & garbage storage: All loading docks and garbage storage and pick-up areas shall be located in the rear of Buildings and away from public right-of-way, and then residential uses. When said location is not possible, screening shall be used to obscure these areas from view of the public right-of-way.
- i. Outside space: All new dwelling unit multi-family uses shall include 24 ft² of exterior outdoor space per unit that may be comprised of any combination of the following: a common roof-deck, a common area deck or porch, a front lawn area located outside required setbacks, or a private deck, porch, or patio that is attached or adjacent to the dwelling unit.
- j. Rooflines: Rooftop mounted mechanicals and flat roofs shall be screened by extended parapets or projecting cornices, or located so they are not visible from any Street. Space enclosed by parapet walls, including head-house access to a rooftop, shall not count towards the Building Height measurement, nor §207b.
- k. Parking: In addition to the parking requirements found in §450, other than handicapped parking, parking shall be located to the sides or rear of buildings. No Parking Space Off-Street shall be located between the building and the road from which it derives its frontage.

S.100 deletion.
Duplexes cannot be reviewed under Section 206 Design Criteria unless we also subject single-family homes to that criteria. If the intent is to regulate all residential uses (inc. single-family) in the above zones, then we would add in the single family use above where the duplex use is being removed.

Section
206
Cont.

- l. Pedestrian and bicycle infrastructure: If called for by the Morristown Sidewalk Policy, development shall include sidewalks along the parcel's Street frontage to ensure pedestrian connectivity to adjacent parcels. This frontage sidewalk shall be physically connected to the walkway to the Building's main entrance. A bike rack shall also be provided for new Development that has 10 or more new parking spaces.
- m. Lighting: A lighting plan that demonstrates compliance with Section 490 of the Bylaws.
- n. Utilities: Utilities shall be underground.
- o. Waiver. The DRB may grant a Waiver for any and all design requirement of this section along said Streets if doing so meets at least two of the goals specified in §204.4.

These changes are substantial.

They double the minimum lot sizes in the RRA Zone from 2 builder's acres to 4 builder's acres to keep our Town's density neutral in rural areas from S.100 changes.

Section 450. Parking and Driveway Requirements.

451. **Parking Requirements.** Parking spaces shall be provided in accordance with the specifications in the below table whenever any new use is established or existing use enlarged. For any use, public off-street parking in lieu of on-site parking may be utilized to fulfill any or part of the parking requirements if the proposed use is located within 500 feet of a municipal parking lot. A straight-line measurement shall be made between the proposed use and a municipal parking lot to determine the applicability of this provision. However, the Zoning Administrator may require an applicant to seek \$500 Site Plan Approval from the DRB to use off-street parking to fulfill parking requirements for the proposed use if the accessibility or availability of parking in the municipal lot is in question.

452. **General Requirements.** For the purpose of this Bylaw, a Parking Space, Off-Street shall be 9 feet wide by 18 feet long and have access to a public street, private road, and maneuvering room. Required off-street parking areas for 3 or more automobiles shall be paved, have individual spaces marked, ~~and shall be so~~ designed, maintained and regulated that no parking or maneuvering incidental to parking shall be on any public street, or sidewalk, and so that any automobile may be parked and un-parked without moving another. Required parking areas for ~~32~~ or more automobiles within the Village limits shall be paved. ~~Parking areas for 3 or more automobiles outside the Village limits do not require pavement and said parking may take places on gravel, dirt or lawn areas.~~

Retail Sales of Goods and Services, Sexually Oriented Business, & Commercial Use	2.5 per 1,000 ft. ² of gross floor area
Restaurant, Bars, and Private Clubs	1 per 4 seats
There are no parking minimums for the following uses: Accessory Apartment, Accessory Retail & Food, Accessory Use or Structure, Bulk Storage of Fuels, Drive-Through, Fence, and Home Occupation.	---

454. The DRB may increase or decrease the number of parking spaces required if it is demonstrated that a different number of spaces is more appropriate for the particular use.

455. **Driveway Location.** All driveways are to be located at least 75 feet from the nearest corner of any street intersection. This shall apply to all uses except Dwelling Unit, Single-Family and Dwelling Unit and Two-Family. For any use and where feasible, the sharing of driveway accesses between adjoining lots is preferred and encouraged.
