ARTICLE I. GENERAL PROVISIONS

Section 100. Authority

- 101. **Establishment.** In accordance with the Vermont Municipal and Regional Development Act (referred to hereafter as the "Act"), Chapter 117 of Title 24, VT Statutes Annotated, there are hereby established Zoning Bylaws for the Village of Morrisville and the Town of Morristown.
- 102. **Intent.** It is the intent of these Bylaws to provide for orderly community growth, to provide for public health, safety and welfare, to achieve the purposes set forth in the Act, and to further the principles of the Town Plan.
- 103. **Effective Date.** This Bylaw shall take effect per §4442 of the Act. Any zoning bylaws previously adopted and in effect are hereby repealed and declared null and void.
- 104. **Amendments.** The Bylaws may be amended in accordance with §4441 & 4442 of the Act.

Section 110. Interpretation and conflicting regulations. If a provision of the Bylaws is stricter than required by the Act, the Bylaws shall govern. If a provision of the Act is stricter than the Bylaws, the state law shall rule.

Section 120. Severability. If any part of these Bylaws is adjudged to be unconstitutional or invalid, such decision shall not affect the validity of these regulations as a whole, or any part thereof, other than the part so adjudicated.

ARTICLE II. DISTRICT ESTABLISHMENT AND REGULATIONS

Section 200. Zones and areas created for the zone descriptions and map.

- 201.1 **Zones Created.** For the purposes of these Bylaws, Morristown is divided into the following zones:
 - a. Central Business Zone CB
 - b. Commercial Zone COM
 - c. ~~Mixed Office Residential Zone~~ MOR
 - d. Industrial Zone IND
 - e. Hospital Zone HOS
 - f. High Density Residential Zone HDR
 - g. ~~Medium Density Residential Zone~~ MDR
 - h. Low Density Residential Zone LDR
 - i. Rural Residential Agricultural Zone RRA

Section 201. Zone Boundary Interpretation.

- 201.1 **Boundaries Following Features.** Zone boundaries shown approximately within the lines of physical features, such as existing roads, ravines, or waterways shall be deemed to follow their centerlines.
- 201.2 **Boundaries Following Lot Lines.** Where zone boundaries do not follow physical features, and appear to instead follow lot lines, such lot lines shall be construed to be the said boundary.
- 201.3 **Boundaries Dividing Lots.** Where a zone or sewer service boundary does not follow physical features, or lot lines, and divides a lot in single ownership, the Development Review Board (referred to hereafter as "the DRB") may permit as a Conditional Use the extension of the regulations for either portion of the lot.
- 201.5 **Unusual Situations.** Where circumstances regarding boundary interpretation are not covered in §201–§201.3, the DRB shall interpret the zone boundaries.

- 201.6 **Rounding.** All dimensional requirements, other than Minimum Lot Size, and Minimum Area per Residential Unit shall be rounded to the nearest whole number for any zoning calculation.

Section 202. Zoning Maps. The official zoning maps entitled "Morrisville Zoning Map and Morristown Zoning Map," located in the office of the Zoning Administrator, are hereby adopted as part of these Bylaws.

Section 203. Special Protection Areas. For the purposes of these Bylaws, the Town is divided into the following overlay Special Protection Areas that shall be part of any of the zones established in §200. Development within these Special Protection Areas is subject to the additional requirements described in §300–§348 of these Bylaws: Ground Water Source Protection Areas (SPA), Flood Hazard Areas (FHA), & Environmental Protection Areas (EPA). The official maps for the Special Protection Areas, as described in §300–§348, shall be kept on file at the office of the Zoning Administrator, and are hereby adopted as part of these Bylaws.

Section 204. Permitted and Conditional Uses, Variances, Waivers, dimensions and design requirements.

- 204.1 **Permitted uses.** Uses that the Zoning Administrator may issue zoning permits without requiring a hearing provided that any specific requirements are met. The letter "P" designates in what zones permitted uses are allowed on the "use table" found on the next page.
- 204.2 **Conditional uses.** Uses for which the DRB must conduct a warned public hearing and may approve the application with conditions as appropriate. The letter "C" designates in what zones conditional uses are allowed on the "dimension table" on the next page.
- 204.3 **Variances.** Variances for frontage, setbacks, and other various requirements of these Bylaws and of §4469 of the Act may be granted by the DRB after submittal of a \$500 Site Plan and a public hearing per §4465-§4469 of the Act. Issuing variances for Development controlled by §320 Flood Hazard Areas and 24 VSA §4469 should be avoided. The Board shall notify applicants that the issuance of a variance to construct a structure below the base flood elevation will result in increased premium rates for flood insurance.
- 204.4 **Waiver.** The DRB may reduce up to 25% of any dimensional or numerical requirement other than Minimum Lot Size, with said percentage calculated by dividing the area lacking the minimum requirement by the required minimum area, provided the waiver request can be found to meet at least 2 of the following goals:
- Maintains compact development patterns in the village and the rural feel of the Town
 - Minimizes impacts to the environment and natural surroundings
 - Does not disrupt the neighborhood's existing settlement pattern
 - Does not detract from the value of adjacent properties on the Town's Grand-List
 - Protects or enhances historic resources
 - The installation of a permanent public art installation. Eligible public art installations include, but are not limited to, murals, place-making architecture, and sculptures. The DRB shall be in receipt of a supporting letter from a community group such as River Arts or MACC stating that the proposed art installation is durable, desirable, and makes the town a more interesting place to work and live. A maximum waiver of 2 additional dwelling units is available via this waiver.
- 204.5 **Affordable Housing Waiver.** The DRB shall waive up to 1 additional floor of Building Height and grant up to a 40% density increase for the creation of new affordable housing per 24 VSA §4303 (1-2) that is permanently deed restricted. The Said 40% Waiver percentage allowed for the creation of new affordable housing shall also be fully applicable to mixed use buildings that contain affordable housing, which and includes a 40% waiver for all minimum parking requirements therein.

shall match the percentage of affordable units proposed in any Affordable Housing Development (ex. a development that is 50% affordable gets up to a 50% Waiver). Said waiver % shall not exceed 75% even if a higher level of affordability is proposed.

~~Architectural repetition: Each building proposed shall be architecturally different than any directly adjacent building (regardless of parcel or property lines). In a townhouse style or similar development, the prohibition on architectural repetition shall be evaluated between the individual townhomes, and not between the adjacent larger building pods (with a building pod being defined as containing 3 or more townhomes on a common foundation). Building articulation of 2 feet or more or the use of a different roof design (ex. flat, gable, gambrel, hip, shed) are minimum requirements to avoid the architectural repetition prohibition between otherwise identical buildings.~~

- ~~a. Blank walls: Blank walls shall not face any Street on which the property has frontage. A blank wall is a building wall that has an expanse of 30 feet in length or greater without fenestration, building articulation or ground level doorways.~~
- ~~b. Cladding: The trim boards for all windows and doors shall sit proud of vinyl siding and hide all J-Channel trim.~~
- ~~c. Exterior Access: To encourage townhouse style development in the HDR Zone, all Dwelling Units shall provide a private entry/exit door that accesses at ground level.~~
- ~~d. Front porch: All residential construction must include a front porch with a minimum size of 8 feet by 6 feet, located on the side(s) of the building that parallels existing or new public sidewalk(s) (as required by the Morristown Sidewalk Policy).~~
- ~~e. Garages. Attached and detached garages shall be located at least 5 feet further from the primary street frontage than the foundation of the home or business that the garage is accessory to, and at least 20 feet from the closest edge of sidewalk or street pavement. Garages shall not be more than 1/2 the length of said home or business, with both lengths measured along the primary street frontage. Interpretation of primary street frontage, when a property has multiple frontages, shall be made by the DRB or ZA.~~
- ~~f. Public entrances: All Dwelling Units shall include at least one functional public entrance that faces the parcel's primary street frontage. In the case of a corner lot, additional public entrances are only required if a sidewalk is present along the additional frontages.~~
- ~~g. Loading docks & garbage storage: All loading docks and garbage storage and pick-up areas shall be located in the rear of Buildings and away from public right-of-way, and then residential uses. When said location is not possible, screening shall be used to obscure these areas from view of the public right-of-way.~~
- ~~h. Outside space: All new dwelling unit multi-family uses shall include 24 ft² of exterior outdoor space per unit that may be comprised of any combination of the following: a common roof deck, a common area deck or porch, a front lawn area located outside required setbacks, or a private deck, porch, or patio that is attached or adjacent to the dwelling unit.~~
- ~~i. Rooflines: Rooftop mounted mechanicals and flat roofs shall be screened by extended parapets or projecting cornices, or located so they are not visible from any Street. Space enclosed by parapet walls, including head-house access to a rooftop, shall not count towards the Building Height measurement, nor §207b.~~

- j. ~~Parking: In addition to the parking requirements found in §450, other than handicapped parking, parking shall be located to the sides or rear of buildings. No Parking Space Off-Street shall be located between the building and the road from which it derives its frontage.~~
- k. ~~Pedestrian and bicycle infrastructure: If called for by the Morristown Sidewalk Policy, development shall include sidewalks along the parcel's Street frontage to ensure pedestrian connectivity to adjacent parcels. This frontage sidewalk shall be physically connected to the walkway to the Building's main entrance. A bike rack shall also be provided for new Development that has 10 or more new parking spaces.~~
- l. ~~Lighting: A lighting plan that demonstrates compliance with Section 490 of the Bylaws.~~
- m. ~~Utilities: Utilities shall be underground.~~
- n. ~~Waiver. The DRB may grant a Waiver for any and all design requirement of this section along said Streets if doing so meets at least two of the goals specified in §204.4.~~

206.1 For Dwelling Unit Single-Family & Two-Family uses the following Design Criteria rules apply:

- a. Architectural repetition. Each building proposed shall be architecturally different than any directly adjacent building (regardless of parcel or property lines). In a townhouse style or similar development, the prohibition on architectural repetition shall be evaluated between the individual townhomes, and not between the adjacent larger building pods (with a building pod being defined as containing 3 or more townhomes on a common foundation). Building articulation of 2 feet or more or the use of a different roof design (ex. flat, gable, gambrel, hip, shed) are minimum requirements to avoid the architectural repetition prohibition between otherwise identical buildings. In no situation shall the front of a townhouse face the rear of another townhouse unless a parking area or road separates them.
- b. Cladding. The trim boards for all windows and doors shall sit proud of vinyl siding and hide all J-Channel trim.
- c. Entry door. All Dwelling-Units shall include at least one functional entry door facing the parcel's primary street frontage. In the case of a corner lot, additional entry doors are only required if a sidewalk exists along that additional frontage.
- d. Front porch. All residential construction must include a front porch with a minimum size of 8 feet by 6 feet, located on the side(s) of the building that parallels existing or new public sidewalk(s) (as required by the Morristown Sidewalk Policy).
- e. Exterior Access: To encourage townhouse style development in the HDR Zone, all Dwelling Units shall provide a private entry/exit door that accesses at ground level.
- f. **Garages. Attached and detached garages shall be located at least 5 feet further from the primary street frontage than the foundation of the home or business that the garage is accessory to, and at least 20 feet from the closest edge of sidewalk or street pavement. Garages shall not be more than ½ the length of said home or business, with both lengths measured along the primary street frontage. Tuck-under parking, which is ground-level parking under a second story accomplished without a garage door shall not be allowed when it is visible from a primary street frontage. Interpretation of primary street frontage, when a property has multiple frontages, shall be made by the DRB or ZA.**

206.2 For Dwelling Unit Multi-Family and business uses, in addition to the §206.1 requirements, the following Design Criteria rules shall also apply:

- a. Blank walls. Blank walls shall not face any Street on which the property has frontage. A blank wall is a building wall that has an expanse of 30 feet in length or greater without fenestration, building articulation or ground level doorways.

- a.b. Building size maximums. The width of any new structure, which shall not be subject to Waiver considerations, is limited to 60 feet or less and its depth shall be limited to no more than 150% of the depth of the larger of the two directly adjacent non-accessory structures, including structures on an adjacent street for corner lots.
- c. Lighting. A lighting plan that shows compliance with Section 490 of the Bylaws.
- d. Loading docks & garbage storage. All loading docks and garbage storage and pick-up areas shall be located in the rear of Buildings and away from public right-of-way, and then residential uses. When said location is not possible, screening shall be used to obscure these areas from view of the public right-of-way.
- e. Outside space. All new dwelling unit multi-family uses shall include 24 ft² of exterior outdoor space per unit that may be comprised of any combination of the following: a common roof-deck, a common area deck or porch, a front lawn area located outside required setbacks, or a private deck, porch, or patio that is attached or adjacent to the dwelling unit.
- b.f. Parking. In addition to the parking requirements found in §450, other than handicapped parking, parking shall be located to the sides or rear of buildings. No Parking Space Off-Street shall be located between the building and the road from which it derives its frontage.
- g. Pedestrian and bicycle infrastructure. If called for by the Morristown Sidewalk Policy, development shall include sidewalks along the parcel's Street frontage to ensure pedestrian connectivity to adjacent parcels. This frontage sidewalk shall be physically connected to the walkway to the building's entry door. A bike rack shall also be provided for new Development that has 10 or more new parking spaces.
- h. Rooflines. Rooftop mounted mechanicals and flat roofs shall be screened by extended parapets or projecting cornices, or located so they are not visible from any Street. Space enclosed by parapet walls, including head-house access to a rooftop, shall not count towards the Building Height measurement, nor §207b.
- i. Stormwater. Stormwater shall not be directly discharged from business or multi-family structures onto Town property, including any public road right-of-way.
- e.j. Utilities. Utilities shall be underground.

206.3 Proposed development that chooses to not comply with one, more, or all of the Design Criteria requirements of §206.1 - §206.2 shall have the following alternative development options:

- a. Cottage Court development. In all zones where Design Review is required (other than Industrial), the Board may, via §630 Conditional Use, allow Cottage Court style development. Cottage Court style development, which most often consists of a cluster of detached single-family homes oriented around a common courtyard that is typically perpendicular to the street frontage, shall meet the following minimum requirements:
 1. Building Height. Building Height shall not exceed 1.5 stories.
 2. Courtyard Width. The required common area courtyard that the dwellings are centered around shall be at least 25 feet wide, grassed or otherwise landscaped, and not bisected by impervious surfaces other than a sidewalk from the common parking area to the dwellings. A front porch on each dwelling may project up to 6 feet into said Courtyard.
 3. Density. The number of allowed dwelling units in any Cottage Court development shall not be more than what is allowed by §204.5b Dimensional Requirements, but a Cottage Court development may be located on a single lot.

 - d. Frieze Boards: Frieze Boards shall be of a width that matches the intersecting corner board with no step (in the example below, the 10:12 pitch results in a frieze board width of approximately 10 inches);

Frieze intersection at corner board

Front Setback: A maximum front setback of 8 feet is required in the Central Business Zone (measured from the outside edge of the sidewalk, or measured from the outside edge of the traveled way when no sidewalk is present, and a sidewalk will not be required). For the section of Brooklyn Street located in the High Density Residential Zone, all structures shall have a minimum front setback of at least 8 feet from the outside edge of the sidewalk.
- f. Gable Ends: Gable ends may be angled or closed with a classic short or full-length frieze return. Pork chop returns are not allowed.

Why is this form required?

Vermont's Municipal & Regional Planning & Development Act (24 V.S.A 4441) requires a municipal planning commission to prepare a report when considering an amendment to a bylaw. Act 47 of 2023 adds a requirement to the report to include findings on conformance with sections 4412, 4413, and 4414 of the Act. It also adds a requirement that the municipal planning commission provide the report to the Department of Housing and Community Development upon approval of an adoption or amendment. The report must be submitted with GIS (Geographic Information Systems) files, a complete bylaw, and information about municipal planning and governance and systems. The form will be published on the Vermont Planning Data Center, here:

<https://accdmaps.vermont.gov/MunicipalPlanningDataCenter/>. Bylaw submission and posting supports the availability of Vermont's adopted municipal bylaws from a central digital source for statewide access and use.

Bylaw Summary & Statement of Purpose

Provide a brief explanation of the bylaw and a statement of purpose (per 24 V.S.A. 4441). Use as much space as needed.

Morrisville/Morristown Zoning & Subdivision Bylaws Statement of Purpose: To provide for orderly community growth, to provide for public health, safety, welfare, and to achieve the purposes set forth in the Vermont Development Act 24 VSA, Chapter 117, and the Town Plan.

Findings on Municipal Plan Furtherance

Explain how the bylaw conforms with or furthers the goals and policies contained in the municipal plan. Use as much space as needed.

The proposed zoning bylaw revisions are supported by and enhance the stated goals of the 2022-2030 Morrisville/Morristown Town Plan. Overall, the vast majority of the above zoning changes are being made to bring the Morrisville/Morristown Zoning & Subdivision Bylaws into compliance with the new HOMES Act (aka S.100). The proposed HOMES Act related zoning changes being adopted locally compliment the Town Plan's main development goal of directing development into the village and directly adjacent town areas with municipal services (allowing more infill housing in these already developed areas), and avoiding new or sprawling development out into the Town's rural countryside. The proposed zoning changes, by granting developers the by-right opportunity to create new house lots in both village and town areas served by municipal water and sewer at a density of 10+ house lots per acre, will create significantly more safe and affordable housing on the supply side (especially in the badly needed category of entry level start homes, townhouses, and even newly allowed cottage court developments).

Vermont Municipal Bylaw Reporting Form

Findings on Safe & Affordable Housing

Explain the effect of the bylaw on the availability of safe and affordable housing. Use as much space as needed.

The proposed zoning changes allow for the creation of a significant amount of new supply-side housing stock, especially the creation of small, affordable, in-fill building lots. Providing this additional supply to the market will help ensure the availability of safe and affordable housing in both Morrisville and Morristown. We hope that this zoning change will be the genesis of many smaller and more affordable single-family homes and townhouses in Morrisville. In rural Morristown, duplexes are now allowed everywhere by this zoning change at the same densities and lot sizes as single-family homes.

Findings on Required Provisions & Prohibited Effects

Explain how the bylaw conforms with 24 V.S.A. 4412. Use as much space as needed.

Include explanations on how the bylaws conform with these provisions (as applicable):

- *Mobile, modular and prefabricated housing*
- *Mobile home parks*
- *Duplex uses*
- *Multi-unit dwelling uses*
- *Accessory dwelling unit uses*
- *Residential care homes or group homes*
- *Hotels for emergency housing*
- *Existing small lots*
- *Required frontage*
- *Home occupations*
- *Childcare home or facility*
- *Heights of renewable energy structures*
- *Nonconformities*
- *Communications antennae and facilities*
- *Planting projects in flood hazards*
- *Accessory on-farm businesses*
- *Lot and dimensional standards for minimum dwelling unit density*
- *Density for affordable housing*

The proposed zoning changes treat all forms of housing equally. These HOMES Act related changes level the playing field so that duplexes can be sited on the same parcels, with the same density and design requirements in rural Morristown, as single family homes. Over the years, assuming the development community responds to these zoning changes, dozens or even hundreds of small building lots will be created in village and directly adjacent town areas served by municipal water and sewer, which allows for more affordable housing opportunities (smaller more affordable lots with smaller more affordable structures thereon). This zoning change employs minimum lot sizes of 4,000 ft² and maximum lot sizes of 8,000 ft² to ensure that the State's new density minimum of 5-units per acre is being met in areas served by municipal water and sewer. Meanwhile, multi-family housing will continue to flourish in downtown Morrisville, which has no development density maximums. Downtown Morrisville has been a statewide

Vermont Municipal Bylaw Reporting Form

Findings on Limitations on Municipal Bylaws

Explain how the bylaw conforms with 24 V.S.A. 4413. Use as much space as needed.

The warned changes do not alter Morrisville's or Morristown's Zoning Bylaws in regards to 24 V.S.A. 4413 zoning protections. The only related change proposed is the deletion of existing regulations regarding emergency shelters that had resulted from a long, well-attended, community supported process.

Include explanations on how the bylaws conform with these provisions (as applicable):

- *State- or community-owned and -operated institutions and facilities*
- *Public and private schools and other institutions*
- *Places of worship*
- *Public and private hospitals*
- *Regional solid waste management facilities*
- *Hazardous waste management facilities*
- *Emergency shelters*
- *Required agricultural practices*
- *Accepted silvicultural practices*
- *Solar energy devices*
- *Ancillary telecommunications improvements and lines*

Findings on Permissible Types of Regulation

Explain how the bylaw conforms with 24 V.S.A. 4414. Use as much space as needed.

In regard to 24 V.S.A. 4414, the proposed zoning changes focus on enhancing the Section 206 Design Requirements found almost exclusively within Morrisville. These enhancements include adopting various recommended Missing Middle design considerations, including banning tuck-under parking, ensuring that the front of one townhouse does not face the rear of another townhouse, and creating maximum building widths and depths to ensure that new development fits the form of its host neighborhood. Other than one very minor sidewalk setback clarification proposed within Morrisville's existing Section 207 Historic Preservation Zoning Bylaws, the proposed changes do not alter other existing town zoning regulations allowed and regulated by 24 V.S.A. 4414.

Municipal Plan Future Land Uses & Density Compatibility

Explain how the bylaw is compatible with the proposed future land uses and densities of the municipal plan.

With the proposed zoning change creating 8,000 ft² maximum lot sizes for the first time in Morrisville & Morristown (in areas served by municipal water and sewer), the future land uses and densities of the Town Plan are being met by directing new housing development into the village and close-by areas of the town that are already developed, while leaving the rural countryside undeveloped and rural. Otherwise, the proposed zoning change shrinks the amount of land available for village like density and development (areas now zoned Low Density Residential that can be reached via gravity sewer). Due to HOMES Act directed changes, the existing Mixed Office Residential Zone and Medium Density Residential Zones are being folded into the Low Density Residential Zone without and end-loss of allowed density.

Planned Community Facilities

Explain how the bylaw carries out, as applicable, any specific proposals for any planned community facilities.

The proposed 2024 Zoning Bylaws make no changes to plans for any community facilities.
