BUDGET REVIEW: Joie reviewed the projected budget for 06-07 to be presented to the Board of Selectmen. A 3% raise is recommended for Mike Goodell; he will be salaried, 40 hr. week.

Question raised as to non-inclusion of sexton pay. Board of selectmen will be asked to pay sexton for both Cemetery Ass'ns.

Question raised as to non-inclusion of investment income. Joie explained that this will be used to build up the investment and for beautification, unexpected repairs/equipment.

Mark informed us that Clegg may be raising his rates for interment. The $100 income per interment may not be realistic. $50 probable. Also, cremation interment low, ? Income $50 per instead of $25. Changes reflected w/ this estimate would be burial, increase from total of 13 to 15, at $50, resulting in $750 income. Cremation increase from 20/yr to 25 at $50/per would be $1250. This would add $200 to income. ($22,200).

The above changes were approved on motion by Rudy, seconded by Dave, passed.

EQUIPMENT: Lee reported that the unused/out dated tractors were auctioned off for $530.
New weed whacker was purchased.
WATER LINE : Gloria explained briefly the history of the proposed water line, dating from 2003.
She recommended that the project go out for re-bid as the increase from Grimes cannot be obtained from Copley Trust. After discussion, it was decided to return to original plan to include the "new" parts and to look into "ditch-witch" for installation. Lee will discuss w/ Belanger as to this possibility. Doug moved to empower the Executive committee to expend the remaining Copley money ($12,000+- after equipment purchase 2 years ago) if proposal falls into this sum. Seconded by Lee, passed.
