V. NEW BUSINESS

Dissolve the Committee – Stephanie explained the reason behind the dissolution of the Parks and Recreation Committee. The Parks and Recreation Director will be hired by the town and be an employee who is supervised by the Town Administer. No other town employee has an advisory committee working with them. Time needs to be given to the new Director to be able to start working without having to also deal w/an advisory group. There is a possibility of reconstituting the Parks and Recreation committee after the summer recreation program is finished or possibly after the 1st year of their employment. The Parks and Recreation Director will be full time from April until the end of August. They will probably be part-time from September to March.
